

WHO ARE WE ?

Railfuture is Britain's leading independent organisation campaigning for better rail services for passengers and freight run entirely by volunteers.

We represent all rail users. We have branches throughout the country and have around 20,000 affiliated and individual members.

Railfuture is effective in helping to get new railway stations built, hundreds of miles of railway lines reopened and new lines created. All of these achievements help to boost economic growth, both locally and nationally.

Our voice is influential within government and the rail industry.

HOW CAN YOU HELP ?

By joining Railfuture you can help us campaign for a bigger railway that serves its passengers better, and encourages more people to use trains. The more members we have, the louder and stronger our voice is heard.

Your membership fees will provide us with vital funds for our campaigning. You can help our cause further by becoming an active member at one of our branches.

MEMBERSHIP

Membership of Railfuture is by an annual membership fee. Details can be found at railfuture.org.uk/join

Or write to Railfuture, 1 Queens Road, Barnetby le Wold, North Lincolnshire DN38 6JH

OUR KEY AIMS

- To ensure the delivery of a bigger and better railway that you would be proud and pleased to use and recommend.
- To ensure that the voices of rail users are heard by government and acted upon in the development of UK rail policy.

CAMPAIGNING FOR

RELIABILITY

Rail users, especially commuters, need a dependable and reliable rail service. Railfuture's top priority is to ensure a far more reliable service for all rail users.

FLEXIBLE AND AFFORDABLE FARES

Railfuture wants simpler to understand and 'value for money' fares, which offer a choice of flexibility in time and routes.

NEW STATIONS AND ROUTES

Railfuture has campaigned to help open more than 400 new stations and some 600 miles of new routes supporting economic growth and providing new journey opportunities.

MOVING FREIGHT FROM ROAD TO RAIL

Railfuture promotes the use of rail for freight transport. This brings significant environmental benefits to our cities and cost savings too.

THE LITTLE THINGS THAT MATTER TO YOU

Sufficient ticket machines, adequate station car parking, clean and accessible stations and toilets, Wi-Fi and power points all make a huge difference to rail user's experiences as passenger surveys continually show.

We campaign for continued improvements to these little things, just as strongly as we campaign for strategic improvements.

A BRANCH NEAR YOU

Railfuture is active in your region leading local campaigns for improved rail services and station facilities.

Our branches are the heart of our organisation. Our members can meet to identify their local issues and campaign for action to deliver improvements.

Railfuture has 12 branches in England, plus branches in Wales and Scotland - there will be one near you.

"I joined Railfuture as I want to see a bigger and better railway, connecting more communities."

"I joined Railfuture because I want to help reduce pollution in our towns and cities and that means a lot less lorries and far fewer cars. Making more use of our railways provides an answer."

"I joined Railfuture as I wanted to campaign for improvements to my local line through better services and facilities."
