Dear Sir/Madam,

Extending the Docklands Light Railway to Beckton Riverside and Thamesmead

Railfuture is Britain's leading and longest-established independent national voluntary organisation campaigning exclusively for a better railway across a bigger network for passengers, and freight users, to support economic (housing and productivity) growth, environmental improvement and better-connected communities.

We seek to influence decision makers at local, regional and national levels to implement pro-rail policies in transport and development planning.

About you

We have explained how we think new public transport is needed to unlock housing growth in Beckton Riverside and Thamesmead. Our preferred option to help us achieve this is an extension of the DLR from Gallions Reach to Beckton Riverside and Thamesmead.

To help us understand a bit more about you, please answer the following questions.

1. Do you live in?

Prefer not to say – London-wide, and beyond.

2. What encouraged you to complete this questionnaire? I'm interested in the proposals because...

I'm just interested in the proposals.

3. Please confirm your postcode:

N16 0DX

Our preferred option:

We would like to understand how our preferred option would affect how you travel:

4. In and around your local area

~ It would make my journey quicker

~ It would make my journey more convenient

5. In and around the wider east and southeast London (for example Abbey Wood and Thamesmead, Canary Wharf, Docklands, Stratford)

~ It would make my journey quicker

~ It would make my journey more convenient

6. Into central London

~ It would make my journey quicker

~ It would make my journey more convenient

www.railfuture.org.uk www.railfuturescotland.org.uk www.railfuturewales.org.uk
www.railwatch.org.uk

7. It would be helpful to know anything we should consider as we progress with the project. As thinking points, please let us know if you have any comments on our proposals that would:

- a. Help us to understand the impacts of our proposals on local people
- b. Help us understand the impacts of our proposals on you as a customer
- c. Help inform our designs when we think about how our new stations could look and feel

“The need for more public transport - High-quality public transport would (not only): Transform connectivity, Improve capacity, Unlock access to opportunities and jobs, and Support long-term growth” it would (also) expand travel choice in support of the objectives of modal shift to more sustainable transport.

8. Can you please confirm if you are responding as an individual or as an official representative of an organisation (e.g. an interest group, charity or trade body).

As an official representative of an organisation.

9. If you are responding as an official representative of an organisation, then please provide its name below.

Railfuture, London & South regional branch.

10. How did you hear about the consultation? Please select the main way you heard.

Email from TfL.

Improving how we consult

When we consult, we want to provide you with accessible, useful, and easy to understand information. We also want to make it as easy as possible for you to share your thoughts, feelings, and feedback on our proposals. We like to think we do this well, but we recognise that there are always lessons we can learn to help us do this better.

To help us constantly improve our consultation service, we'd appreciate just 2 minutes of your time to tell us what you think about this service.

11. Having just completed this consultation, which of the following statements best reflects your experience of accessing the consultation information and sharing your feedback with us.

Met my expectations: I was able to find the information I needed, and it was straightforward to respond.

12. If we didn't meet your expectations, please tell us how you would like us to improve our consultation service in the future.

Please only share your feedback on how we can improve our consultation service. If you want to leave further feedback on the proposals that we're consulting on, then please return to question 7 and leave your feedback there.

13. It's always good to talk and we're always keen to discuss how we'll improve our consultation service going forward. If you'd be interested in taking part in helping to shape our consultation service in the future, by taking part in quick polls, webinars, surveys or focus groups, then select one or more of the options below.

No – I'm not interested in taking part in this research.

Yours faithfully,

Roger Blake BA, MRTPI (Rtd), MTPS
Railfuture
Vice-Chairman, London & South East regional branch
Director for Infrastructure & Networks, national Board
