Britain's leading *independent* campaign for a bigger better railway for passengers and freight

London Metro Mayoral Manifesto

Our Rail Manifesto for London was published last month, for May's elections for the Mayor of London and the 25 members of the London Assembly (AMs). It's available in 3-page and 1-page formats at: <https://www.railfuture.org.uk/London-Metro>

A Rail Manifesto for London **railfuture** Elections 2024

London's public transport is an essential component of a vibrant, efficient and effective city. It allows everyone to move around easily and quickly and, together with active travel, it reduces car use, with the associated issues of pollution, inefficient use of road space and cost to the user.

We call for 10 tasks to deliver better transport for London:

1 A unified rail system under the direction of its Mayor	2 Four trains per hour minimum service	London rail services need to be FREQUENT, RELIABLE, PUNCTUAL, AFFORDABLE and ACCESSIBLE	Rail travel is the best form of transport in urban areas, particularly so in London: Rail is FAST, SAFE, and ENVIRONMENTALLY FRIENDLY
3 Discrepancies in service quality north and south of the Thames resolved	4 A system that is better maintained, with newer trains		
5 Fares that are fair for everyone (not just digitally savvy users with bank cards)	6 Ticketing that is simple and user friendly (maintain TravelCards & Oyster and link Railcards to bankcards)	The needs of London's rail passengers must be met	
7 A system that is free of 'access discrimination'	8 Stations with adequate facilities and staff, that are safe!	Use of London's rail services should be encouraged as a priority	
9 Planned improvements actioned (West London orbital, Bakerloo line extension, DLR to Thamesmead)	10 Longer term infrastructure projects initiated (Elizabeth Line and Croydon tram extensions, Crossrail 2 & 3)	Investment in London's rail services must be maintained and enhanced	

London's complex transportation needs means investment in rail is imperative: London's rail services need to be **SUSTAINABLE** and **FIT FOR FUTURE NEEDS**
