DO YOU WANT TO SEE A  
MODERN, ATTRACTIVE RAIL SYSTEM  
AND LESS CONGESTION ON THE ROADS?

IF SO, ask your General Election candidates these questions:

If elected, will you -

- \* Vote for the rejection of the rail cuts options in the Serpell Report, which could lead to nearly 10,000 miles of route being axed? Did you know that a 21,000-signature petition against any Serpell cuts, and for increased rail investment, has just been raised by the Railway Development Society?
- \* Respond to the recent management - union agreement on the Bedford - St Pancras line, by seeking the go-ahead for a massive programme of railway electrification?
- \* Oppose all cuts in the passenger network?
- \* Urge the new Government to help fund a programme of experimental rail reopenings under the 1981 Amendment to the 1962 Transport Act?
- \* Press for investment in new diesel locomotives and railcars to replace life-expired ones?
- \* Work towards a fairer system of funding road and rail transport?

----

These are some of the aims of the RAILWAY DEVELOPMENT SOCIETY, a voluntary, independent body for rail users. Join us and strengthen our campaign.
