Made for  
Torrige District Council

# *The last train*

- In 1982, Bideford saw its last special national network service. The scheduled passenger service finished in 1965. 2022 is the 40<sup>th</sup> anniversary.
- The picture shows that 1982 special service and some of the 843 passengers for that day.

The 'Last train to Torrington' calls at Bideford. 6.11.82. Photo: Roger Joanes.

# *Restoring your railway*

- The central government's program works with councils to help support left-behind communities.
  - Access to jobs and education, supporting new housing developments and boosting tourism.
  - Regenerate local economies
  - Cut down on car emissions and ease local road congestion.
- 
-

# *31,000 residents in Greater Bideford (Bideford, Northam, Appledore and Westward Ho!).*

## Sustrans summary

- Integrating walking and cycling with public transport is essential to making it easier for people to leave their cars at home.

## *Devon County Council's Bideford to Barnstaple railway safeguarding*

- In 1999, DCC, TDC & NDDC paid a team to carry out a feasibility study (The Maunsell Report). The report stated that the Barnstaple bypass was to be constructed with enough height clearance for a future railway. Also that the route would need to be reinvestigated in the future.
- Today, you will see double decker buses using the underpass.

## *The Maunsell summary*

- Maunsell therefore recommended that the Bypass is constructed without the underpass but with sufficient clearance that it can be added at a later date.
  - Secondly, no further encroachments onto the route are permitted.
- 
-

# Barnstaple bypass

The main line rail link from Barnstaple to Bideford

## Tarka Line

**Torrige**, ranked as in the lowest 4% of GDP per capita in the whole of the UK!

A restored railway service would bring economic prosperity for the entire area.

Bideford residents would gain (much needed) employment opportunities without the need to own a private vehicle.

# Why Bideford?

- A 'Greater Bideford' resident population of over 30k, growing recently by 3k per decade, the largest shortfall in rail connectivity in all Devon.
  - That number doubles to 60,000 people in the summertime.
  - The Barnstaple to Exeter Tarka Line is currently being upgraded for a faster hourly stopping service. Meaning a Bideford to Exeter railway service would take just over an hour!
  - Sustainable access for visitors
  - A39, A361 and B3233 congestion relief
  - In line with central government's Carbon Neutral targets
  - Access for all further and higher education students
  - Tremendous employment opportunities
- 
-

# *The local plan*

- Bideford rejoining the national network needs to be added to the new North Devon and Torrridge local plan. A restored mainline railway service via Barnstaple is needed to serve new developments over the coming years, as well as our long-established communities with sustainable public transport.

We must

- 1. Present to North Devon District Council why Bideford needs a railway service.
  - 2. Present to Torrridge District Council why Bideford needs a railway service.
  - 3. For Bideford to re-join the national rail network, the new joint Local Plan for Torrridge and North Devon needs to have a policy commitment to define and protect a route.
  - 4. Once both Districts' Councillors have resolved that such a policy should be included, Council officers will write it in. It's then a matter for future public and stakeholder consultations, and can gather more widespread support.
- 
-

## *Proposed starting points & next steps*

- 1. Form a Bideford Town Council ACE Rail committee.
  - 2. Include Torrington and North Devon District councils.
  - 3. Ask DCC and Peninsula Transport for support.
  - 4. Include Network Rail and GWR in meetings
  - 5. To part-fund an independent specialist adviser to prepare a Prospectus for ACE Rail as a basis for an initial business case; Railfuture may also part-fund.
- 
-
