Britain's leading *independent* campaign for a bigger better railway for passengers and freight

What a difference one month makes!

[COVID-19 briefing to Railfuture members](#)

The Railfuture *Rail Network Announcements Pipeline* (RNAP) saw just one of last month's four awaited DfT decisions, [continuing two incumbents' operations](#) from 1st April. [Southeastern](#) will continue to be operated by Govia, and [Great Western Railway](#) by FirstGroup.

Three Decisions for Transport remain outstanding:

- ~ the Williams Rail Review
- ~ the Fares and Ticketing Review
- ~ GTR's Passenger Benefit Fund results.

Happy railway birthdays in April:

~ Tuesday 27 April 2010 marked the first step towards the conclusion of a double decade of campaigning for the East London Line Extensions. A one month long 'preview service' ran between the four new stations at Dalston Junction, Haggerston, Hoxton, and Shoreditch High Street and New Cross / New Cross Gate. Joint usage has multiplied four-fold, from 5.4 to 22.1 million.

Our vision for rail: A railway system that provides services which travellers and freight forwarders want to use, and which offers more journey opportunities to more people and more freight.
